

This training will be for Disease Intervention Specialists who perform HIV and STD counseling and testing, and will focus on reaching out to partners and how to make better contacts with partners for testing and follow up. Anyone who has not had this training, has not had it within 5 years, or who needs a refresher is encouraged to attend. Class size IS going to be limited to 18 participants, so you need to be planning soon for this early-in-the-year course.
